- Tap the pizza to order immediately using your pre-configured payment method.
-
- Swipe up to configure your pizza.
- Swipe down to place an order for a random pizza.

As you swipe upwards, the pizza button flips over, the toppings fall off, and you wind up with a “blank slate” and the ability to add toppings.

Drag items to the pizza to add toppings.

When you’re finished, tap “Order Now!” to submit your order.

The app then transitions to a countdown state...
